

FRIDAY EVENING, NOV. 6, 1903.

## FROM WASHINGTON.

(Correspondence of the Alexandria Gazette.)  
Washington, D. C., Nov. 6.

WHILE ALL the true democrats of the country are rejoicing over the great democratic victory in New York the Richmond Times-Dispatch in its leading editorial of yesterday published the following:

"Tammany's triumph is a disgrace to civilization and an insult to public decency. It means that the city is going to return to the system of graft and rackets under which those who pay the price will be permitted to violate the law and ply their infamous trade in crime and shameful immorality. Verily the sow has returned to her wallow."

Tammany on Tuesday elected McClellan Mayor, Grout Comptroller and Fornes President of Board of Aldermen—three honorable men who have, so far as known, filled honestly and efficiently every position to which they have been elevated, and faithfully performed every duty assigned to them, and in an election which the republican Commissioner of Police of New York says was the fairest ever held in that city; and, for a Virginia, supposedly democratic, paper to speak of such a democratic victory as "a disgrace to civilization and an insult to public decency" is more than passing strange.

TALK ABOUT the nomination of Senator Hanna for the presidency goes on with increasing interest, and the close friends of the Senator are actively pushing the matter. The republican leaders see in Tuesday's election the unpopularity of Mr. Roosevelt and are casting about for a stronger candidate. Before leaving his home in West Virginia for Washington yesterday Senator Scott declared his preference for Hanna for the presidency. It is doubtful, however, if Mr. Hanna can afford to break with the President after the compact entered into between them over a year ago and the positive assurances that have since been made by the former that he would not oppose the latter at the next election. Still, politics is an uncertain quantity, and political promises are as easily broken as pie crust—especially when the G. O. P. is in jeopardy.

It is now given out that the republicans will oppose a congressional investigation of the postoffice scandals lest "the cases of those under indictment might be benefited by turning on the light of publicity at this time." This is the lamest excuse ever framed, but the republicans assume that all others save themselves are fools. They do not want more publicity than has already been given to the postoffice scandals and fear that a congressional investigation into the postoffice might lead to one in the other departments, which are believed by many to be corrupt to the core. This is the true reason for their opposition to further investigations. The year previous to a national election would be a bad time for the republican party to have the light of publicity turned upon it by a general departmental investigation.

IN REFUTATION of the talk of fraud and bribery in the late election in New York, being indulged in by the "fusionists," it is only necessary to quote Commissioner of Police Greene, a republican and a retired army officer, who says the election was the fairest ever held in the city, and that the result indicated the deliberate choice of the people. General Greene also said he was firmly convinced there was less illegal voting than ever before in a city election.

TWENTY-FIVE thousand dollars for a kiss is the price that a married woman in Chicago wants from a patent attorney of that city. The kiss was pilfered from her two years ago, but she has only now begun suit and the papers in the case fail to set forth whether her long wait for another kiss caused such anguish of mind that she was induced to seek excessive damages.

IT IS REPORTED in New York that Mr. Bourke Cockran, who made speeches for the Tammany ticket in the recent campaign, can have the nomination for Congress in McClellan's district, the XIIIth, if he wants it.

## Fairfax County Vote.

The official vote of Fairfax county on last Tuesday was as follows:  
Machen, dem., 867; Brooks, rep., 330; for Senate: Lee, dem., 856; Payne, rep., 280; for House: Allison, dem., 953; Middleton, rep., 250; for Sheriff: Wrenn, dem., 907; Speer, rep., 238; for Commissioner of Revenue, north side: F. W. Richardson was elected County Clerk; Robt. Wiley Treasurer; C. V. Ford Commonwealth's Attorney and Jno. M. Ballar Commissioner of Revenue, south district.

The democrats elected the entire Board of Supervisors as follows:  
R. L. Spindle, Centerville district; G. H. Burke, Lee district; R. C. Triplett, Mt. Vernon district; Geo. Auld, Falls Church district; F. W. Williams, Jr., Providence district; J. S. Pearson, Dranesville district; also every district officer except two Justices of the Peace, the democrats in two districts where the two republicans were elected having failed to send in their notices to the Clerk in time.

## NEWS OF THE DAY.

The Chinese are much incensed at Russia's arbitrary demands, and talk of declaring war.  
Government gunboats have re-established the blockade off Puerto Plata, Santo Domingo.

A. B. Davis, a negro, began delivering mail at Princeton, N. J., yesterday on one of the rural free delivery routes outside of Princeton, but the owners of boxes along the route object to the new postman.

New low records were established by the United States Steel securities on the New York Stock Exchange yesterday. The common stock sold down to 10 1/2, the preferred to 5 1/4 and the 5 per cent. bonds to 66 1/2.

It is said that a conference was held in Washington yesterday by some western democrats to start a boom for Senator Cockrell for the presidency in opposition to that of Senator Gorman, but that the outcome was not satisfactory.

The new scale for the coming year has been signed by the employees of the American Steel Steel Company at Scottsdale, Pa. It goes into effect the first day of the year, and carries a reduction of 20 per cent. in the wages of the tonnage men, rollers, heaters and shearmen.  
Tiempo, usually a conservative Catholic organ, published in the City of Mexico, puts all the blame for the Panama rebellion upon the United States, declaring: "Profound stupefaction is caused in Mexico by the news regarding the rebellion that has broken out on the Isthmus of Panama."

Nearly half a million dollars was pledged for missionary work in foreign lands for the coming year by the representatives of the auxiliary societies of the Methodist Episcopal Church at Grace Church, Baltimore, yesterday afternoon, at the closing session of the thirty-fourth annual convention of the missionary association.

Sam Adams, a young negro, criminally assaulted Mrs. Peter Ladusue at Pass Christian, Miss., yesterday. He cut loose the horses from her carriage while she was strolling along with nurse and child and lured her from her companions under pretense of securing the animals. He escaped, but was captured, and last night a mob took him from the jail, which had been guarded by armed men as a precaution, and hanged him to a tree.

## I'M BE SCAPEGOAT, ASSERTS LEWIS NIXON.

There was a sensation at the ship building trust hearing in New York yesterday afternoon when Lewis Nixon, who had been under cross-examination by W. D. Guthrie, attorney for C. M. Schwab, said:

"I see it all; you are trying to make a scapegoat of me."

Mr. Nixon was trembling with excitement when he entered Commissioner Oliphant's office, where the hearing is being held. Mr. Nixon said to the Commissioner:

"Will you let me address a few words to Mr. Guthrie?"

The permission was granted and Mr. Nixon said:

"Mr. Guthrie, when you addressed your outrageous and disgraceful remarks to me yesterday morning it was my intention to have my personal counsel see you. This whole thing is sprung out of selfishness and greed, and for that reason you, a reputable lawyer, have been probing into my early personal affairs."

"Is it any disgrace for a man to start without a cent and build up a shipyard; is it any disgrace to build one hundred ships?"

"When you made the insinuation you did about the cash capital of my company I did not know exactly what you meant. Since I have learned. The cash was on its way from Mexico and has disappeared."

At 12 o'clock next Monday Congress will meet in extra session of the 58th Congress. The opening day will be devoted to interesting preliminary routine. The House will be organized by electing Mr. Cannon speaker. In the Senate the proceedings will be brief, as there is no need of organization and the drawing of seats. In both House and Senate there will be an immediate flood of new bills. Eleven contested election cases will engage the attention of 58th Congress, although it is unlikely that they will be taken up at the extraordinary session. None is from Virginia. The two South Carolina contestants are colored men. There has been no negro in Congress since the 56th Congress.

Commissioner Jones has received a dispatch from Indian Agent Brennan at "Pine Ridge, S. D., saying: 'Everything quiet on the reservations. No excitement, nor Indians likely to be any more among our Indians.' Attorney General Knox has instructed the District Attorney in Wyoming to see that the Indians arrested for the killing of the sheriff and a member of the posse are given proper trial and accorded full justice."

The President today assigned Rear Admiral Joseph B. Coughlan, to the supreme command of the naval forces of the United States in the isthmus of Panama.

Representative Overstreet of Indiana had a conference with the President this morning and later said that he did not believe that Senator Hanna would be a candidate for the White House honors.

Speaking of the republicans' caucus next Saturday night, Mr. Overstreet said that he believed Representative Babcock ought to be made chairman.

There was a slight flurry of snow here this morning—the first of the season.

## FOREIGN NEWS.

Seven persons were killed, and 20 injured by the collapse of the Mula Athenaeum at Murcia, Spain, today.

The Cuban Republic which has lately taken its place among the republics of the world, is among the first of the nations to recognize the independence of the new Republic of Panama. Senor Duque, Cuban consul at Panama, has been authorized to recognize and treat with the provisional government of the isthmus, as independent of the Colombian government.

The Berlin Visische Zeitung today reports that the Russian government has passed an outrageous measure against the Jews. A decree has been issued prohibiting sick Jews from visiting the Crimean, Caucasian or Baltic health resorts. These comprise all the best resorts of the land. The sick Jews are thus driven abroad to seek such aid. The decree also forbids all Jews residing in the provinces from travelling to Moscow to seek expert medical aid. The paper denounces the decree as one of unheard of cruelty.

## VIRGINIA NEWS.

It is again stated that ex-Congressman Harry S. George Tucker, now dean of the Columbian University Law School, in Washington, will be a candidate for governor of Virginia.

In Fredericksburg yesterday Charles Talley, a prominent citizen of Spotsylvania county, was acquitted of the charge of larceny of railroad ties, etc., the property of Charles M. Wyeth, of Baltimore.

Mr. N. Poulson has sold to Mrs. Virginia Wright his furniture factory at Round Hill for \$1,100 cash. Mr. Poulson announces that his spoke and handle factory will be established again at Round Hill. Mr. Poulson will resume work about January 1.

An analysis of the Virginia vote shows that while there is little change in the strength of the respective parties in the legislature there was a considerable shifting of the base from which it came, the southwest sending more republican delegates to the legislature.

The new Masonic hall at Luray was dedicated last night, the address on the occasion being delivered by Dr. W. C. Bittling, of New York. The services were held in Main Street Baptist Church and were attended by many prominent Masons from different parts of the State.

Judge Calloway Brown, of Bedford, senator-elect, died at his home, in Bedford City yesterday of typhoid fever. He was elected to the State Senate by a large majority in Bedford and Rockbridge, but being unconscious from disease, never knew the honor done him. The Governor has appointed Judge Stephen Adams to hold the November term of Bedford City Court.

William Patrick Ward, a contractor on the Chesapeake and Ohio railway, while inspecting some work at Stapleton, fifteen miles east of Lynchburg, was run into by an engine yesterday and received injuries from which he died an hour later. He was taken to Lynchburg in the hope that his life could be saved. Mr. Ward was 26 years of age, single, and a son of the late Judge R. H. Ward, of Campbell county.

The mysterious veiled woman who took the drugged and unconscious countryman, Precious Hornley, out on the roadside near Richmond to die, has not been identified. She is believed to be Sallie Smith. Mollie White, the proprietress of the house, declared Sallie Smith did not live there, but the police found her trunk in the house. In court yesterday Hornley answered affirmatively to every question asked him, and at one time declared he had never been in Mollie White's house. He has either not recovered from the drugs or for some reason does not desire to prosecute the woman who robbed and nearly killed him. He will be held by the court to await developments. The police justice gave instructions to the police captain of the district yesterday never to allow Mollie White's house to be conducted again in Richmond irrespective of the decision in this case.

TO JOIN STRIKERS.—The principal development of yesterday in the strike in Washington on the four apartment buildings of which T. F. Schneider is the architect and Francis H. Duehay is the contractor was the action of twenty-two carpenters, members of the United Brotherhood of Carpenters and Joiners, employed on the new Winsor apartment house at the corner of Fourteenth and T streets, who quit work and walked out. They were promptly replaced with members of the Amalgamated Association of Carpenters and Joiners.

On the four buildings affected by the strike—the Woodley, the Rochambeau, the Cecil, and the Winsor—work was in progress yesterday. The places of the striking stationary engineers had been filled with non-union men, building material was being hoisted to the upper stories, and there was no apparent diminution of activity. Non-union men also were filling the places of the structural iron workers. The painters and steamfitters, however are still out and declare they will stay out. Their places have not yet been filled.

Mr. Duehay said the strike was unquestionably precipitated by the ill-feeling and strife between the two carpenters' unions and that an attempt was being made to force, through him, a settlement of the controversy.

The striking upholsterers of the firm of W. B. Moses & Sons have returned to work. The firm acquiesced in the demands of the strikers for an eight hour day without decrease of pay. Upholsterers employed by other firms are still on strike.

WANT POLICIES CANCELLED.—In the United States Circuit Court in St. Louis yesterday the Mutual Life Insurance Company of New York filed an application for the cancellation of two life insurance policies, aggregating \$250,000, carried by the company upon the life of James L. Blair. The company charges that the policies were secured through fraudulent representations. The petition further charges that Blair attempted to take his own life on October 15 and October 31 and defraud the company of the amount of the policies. The petition also charges that Blair for ten years, during which time he was attorney for the company, deceived the company by representing that he enjoyed an income of \$100,000 a year; that he was a capitalist and able to pay the premiums. The petition sets forth that on November 2 the company served notice upon him of cancellation of the policies which he held upon his life and made him a tender of the amount of the premiums he had paid and interest thereon, amounting to \$33,063, and that this tender was refused. The tender is therefore made to the court, and it is petitioned that Blair be required to appear in court to answer the charges, but not under oath, the petitioners specifically waiving requirement of an oath. Papers summoning Blair to court were given to a United States deputy marshal yesterday, and he departed for the Blair home to serve them.

Stepped Against a Hot Stove.—A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Keller, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by Richard Gibson.

## TELEGRAPHIC NEWS.

Horrible Brutality.

Berlin, Nov. 6.—The trial of a medical officer and a number of corporals which is now progressing by courts martial at Frankfurt-on-the-Main, has again caused a sensation because of the revelations of cruelty in the German army. During the last three months there have been over one hundred convictions of commissioned and non-commissioned officers of the army for cruelty.

The men are charged with atrocious brutality toward a soldier named Bayer. Bayer, who was a rustic youth, was slow to learn the complicated drill taught. Day after day he was flogged, kicked, and otherwise tormented. At night, when the lights were turned down, his persecutors threw Bayer out of bed and flogged his bare back till the blood flowed in streams. This cruelty went on for a year, till Bayer became a physical wreck. He was sent to the regimental infirmary, but in spite of his illness, he was punished in the abdomen till he fainted. Another time he was strapped down firmly, while his persecutors held his eyes open, and dazed them by flashing sunlight on them with a reflector. This caused him agonizing pains, and resulted in the loss of his sight. One night a medical officer came on duty in a drunken condition and perpetrated an outrage on Bayer. Two soldiers were called in to hold him, while a third held a gag in his mouth to stifle his shrieks for mercy. The medical officer then took a big stick and proceeded to belabor Bayer till his body was one mass of wounds and sores. The medical officer then demanded a sword and began to slash the man wildly, inflicting dangerous wounds. When he was exhausted, the officer ordered Bayer to be pitched out of doors, where he lay for hours in the cold and rain. This case was brought to the notice of the military authorities but no compensation was awarded to Bayer. He was simply discharged from the army as unfit to do service and sent home on an ambulance stretcher. He was blinded in both eyes and deaf in both ears; his body showed six sword wounds, and 58 other injuries; his arm was broken and had been left unset for nearly a week; his body was also covered with fearful sores, while he suffered excruciating pains in the eyes, ears, and head generally. He is an utter wreck and will never be able again to do a day's work.

The Bennett Will Case.

New Haven, Conn., Nov. 6.—Judge Livingston W. Cleveland in the probate court, this morning, rendered his decision in the matter of the admission to probate of the will of the late Philo S. Bennett, of this city, in which \$50,000 was given to William J. Bryan, partly for his family and partly for himself either personally or for distribution according to the terms of a sealed letter accompanying the will. Judge Cleveland, in summarizing the decision, previous to handing down an extended memorandum, said: "As to the question as to whether the will was properly executed there was no claim that the testator lacked testamentary capacity. I find that he had sufficient testamentary capacity. It was claimed by opponents of the will that there was undue influence exercised by Mr. Bryan. I find that there was no undue influence. I find that the type-written letter was not designed to be a part of the will, and was not found in the will, but in the safe of Bennett, Sloan & Co., whereas the will and sealed letters were in the safe of the Merchants' Deposit Company. I find therefore that there was no undue influence; that the sealed letter is not incorporated as part of the will. The court expresses no opinion as to whether the sealed letter may or may not be incorporated into the will at some later time. It may be urged that some use can be made of the letter either in this court or in the Superior Court. As to this no opinion is expressed."

The consensus of opinion among lawyers seems to be that the question of the effect of the unadmitted sealed letter on the will was still an open one and would have to be decided by appeal which can be taken by either side. Mr. Bryan's counsel stated that it was quite likely that Mr. Bryan would appeal from the decision refusing to admit the sealed letter. Judge Gerry Stoddard, counsel for Mrs. Bennett, was not in the city, but it is regarded as certain that an appeal will be taken by Mrs. Bennett, from the probate of the will, claiming undue influence on the part of Mr. Bryan. The effect of the decision, therefore, as far as Mr. Bryan's likelihood of getting the money is concerned, apparently depends upon the litigation over the probate of the will, or in the case the probate of the will is not contested, over the distribution of the property.

## From Panama.

Panama, Nov. 6.—Everything remains quiet at Panama and Colon today, and all efforts are being directed to the organization of the government for the new republic of Panama, as quickly as possible. The three consuls appointed to take charge of the provisional government have received congratulatory messages from many points in the island and words of encouragement for their work. The report that General Torro, who is supreme commander of the Colombian forces of the isthmus, sailed for Cartagena last night, proves to have been a mistake. They missed the steamer and are again held partial prisoners. The American government and all Americans here are in the highest favor of the new republic.

Gen. H. O. Jeffries, an American and a graduate of West Point, has been put in command of the revolutionary gunboat Padilla, replacing Gen. C. Varion. General Jeffries, also has supreme command of the Pacific flotilla of the provisional government. It is probable that he will go in pursuit of the Colombian gunboat Bogota, which on Tuesday night fired on the city. The American cruiser Boston is expected to arrive this afternoon.

## Parks Sentenced to Sing Sing.

New York, Nov. 6.—Sam Parks, the walking delegate, found guilty of extorting \$500 from the Tiffany Studio Company, was today sentenced to two years and three months in Sing Sing. As soon as sentence was pronounced, Counsel Battle, for the prisoner, asked for a new trial on the usual grounds. Judge Newburger refused to grant the plea, and stated that the sentence imposed was the lightest possible under the circumstances. Parks received the sentence calmly, and after his fate was known he was led back to his cell in the Tombs. Parks is already under sentence for extorting \$500 from Contractor Joseph Plentz, and he had begun his sentence when his release from Sing Sing was obtained a few months ago on a certificate of reasonable doubt. There is considerable doubt felt as to whether Parks will ever

survive his sentence. He is suffering from consumption and many feel that a sentence of two years and three months is practically a sentence for life and that he will never again breathe free air.

## Germany and the Hague Tribunal.

Berlin, Nov. 6.—There is a growing movement in Germany to withdraw Germany's part of the proceedings for the settlement of the claims against Venezuela from the Hague tribunal. The newspaper Deutsche Zeitung for example, today denounces the arbitration as a farce, and adds: "President Muraviev has shown anti-German bias and has insulted the German representative. The speeches of the Belgian representative and the French member have been in mockery of Germany, and demand that Germany no longer recognize the clownish proceedings."

## Wealthy Heiress Marries Chinaman.

Chicago, Nov. 6.—Miss Bobb Clark Hoyt, of Bozeman, Mont., niece of Benjamin D. Hoyt, one of the wealthiest and most influential men in Montana, was married last evening to John Wing Lee, a naturalized Chinaman. The American girl and the Chinaman had made a dozen schemes to get away for the wedding, but the difficulties in the way were too great. The wedding will create a sensation in Montana, where Miss Hoyt, by reason of her wealth and social position as a relative of Senator Clark, is well-known.

## Telegraphers to Ask for Increase.

Baltimore, Nov. 6.—The general committee of the Baltimore & Ohio branch of the order of railroad telegraphers, which has been holding its annual meeting here, announced yesterday that at the annual conference with the management of the railroad company, which will take place in the near future, a request will be made for an increase of wages and also for shorter hours at certain block stations along the system, where the work is claimed to be too heavy for one man for a period of twelve hours continuously.

## New York Stock Market.

New York, Nov. 6.—11 a. m. The general railroad list was disposed for a time to show some resistance to the influence of the weakness in U. S. Steel issues. At intervals prices rallied above the early prices, and in some instances went higher than yesterday's close. Even when the steel stocks were at their lowest points, the reaction in the railway list was only fractional and about the close of first hour fair recoveries took place. Pressure against U. S. Steel stocks was apparently inspired by fear of further reductions in the schedule of finished products. The loss in the common was only fractional but the preferred broke 2 points. The speculation is somewhat unsettled and feverish, but it shows a fair measure of support. Government bonds unchanged.

## TELEGRAPHIC BRIEVITIES.

The lumbering village of Bibon, Wis. was completely wiped out by fire last night. The loss, it is believed, will reach \$100,000.

Last night a detective of the Erie Railway Company arrested Edward Yanseng, aged 16, and Isaac Williams, aged 19, both of Paterson, N. J., on the charge of having robbed the Erie stations and postoffices at Rahway, N. J., and Hazleton, Pa. The boys were arrested on a freight train after a fight in which shots were exchanged. The young desperadoes had a full outfit of burglar's tools. They were committed pending examination.

An explosion of oil occurred at the Pennsylvania Railroad round house in Pittsburgh, Pa., this morning, and two persons were so badly burned that they died afterwards. The men, carrying torches, went under an engine in the round house to test an oil jack. Immediately there was a violent explosion, and burning oil was sent flying in all directions, and over the clothing of the men. How the accident occurred is not yet known.

The run inaugurated at the Amsterdam, N. Y., Savings Bank yesterday ceased before noon today, the total amount of withdrawals not exceeding \$40,000. Ninety per cent. of the withdrawals were made by foreigners.

The Orange, N. J., police today received word that Miss Clara Coffin, who has been missing from her home in East Orange since Tuesday last, has been found in Omaha, Neb., and that she was well.

The Harmony mills, at Cohoes, N. Y., employing about 10,000 persons, have been shut down owing to a lack of cotton.

Employees of the Chicago City Railway Company have voted to strike and are determined to enforce their demands.

## STIRRED BY VACCINATION.—Owing to compulsory-vaccination orders being issued by the Board of Health and the sending out of Dr. Moorman and Dr. Webb, accompanied by a police officer, a great commotion has been stirred up in Belmont, near Roanoke, where the physicians are now vaccinating the children in the public schools. Many patrons of the institutions visited the schools Wednesday and Thursday and took their children home. Several children are said to have fainted while undergoing the ordeal, and many had to be held in order that their arms might be bared for the vaccination. Patrons of the school are in a rebellious mood.

## The Market.

Georgetown, Nov. 6.—Wheat 75.80.

## Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Fremont, N. C. writes. Only 50c, at E. S. Leadbeater & Sons, Druggists.

## A Good Name.

From personal experience I can testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Boone, Tex. Thousands of people are using these tiny pills in preference to all others, because they are so pleasant and effective. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purgative and weaken, but cleanse and strengthen. Sold by all druggists.

100 boxes SCOTCH HERRING just received by J. C. MILBURN.

## MEDICINAL IN ALEXANDRIA

## Every Claim is Backed by Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Alexandria, what can it be?

Charles N. Rauch, broom manufacturer, corner Queen and Cameron streets, residence 223 north Royal street, says: "If the heavy lifting incurred at my calling was not the primary cause of backache and kidney complaint, attacks of which occurred during three years, it certainly aggravated them. I quit the occupation and commenced broom making. Although this was easier on the back the work being lighter, the aching still continued. Sometimes it was so severe that I could scarcely stand it. I was under the care of leading physicians, some of whose treatment helped me temporarily, but none permanently. Deciding to use Doan's Kidney Pills I went to E. S. Leadbeater & Sons' drug store for a box. Without being able to positively state that they have gone to the root of kidney complaint and thoroughly eradicated it, the treatment forced me to say that this remedy is certainly a specific for the kidneys."

For sale by all dealers. Price 50 cents a box. Foster-Milburn & Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.
